

Guide for Centria's interactive campus map

For version 9-2-2026

Main screen

Main screen is where users can inspect and move campus map freely. Rooms on the map react in real time with set reservations for rooms. The currently reserved rooms are shown as green as room 131 is seen in the picture.

Current floor is shown on top left corner, and current time is shown on top right corner.

Buttons:

- Go Up => Move one floor up. If the floor is maximum (2), this button will not work.
- Go Bottom => Move one floor down. If the floor is minimum (0), this button will not work.
- Search => Start searching for any room from another screen.

Other functions:

- Clicking or tapping from any room will open the room info of that room.

- Users can move map left and right by holding screen with mouse or finger and move in those 2 directions.

Search screen

Search room. Input room code:

Apply

136B

Back

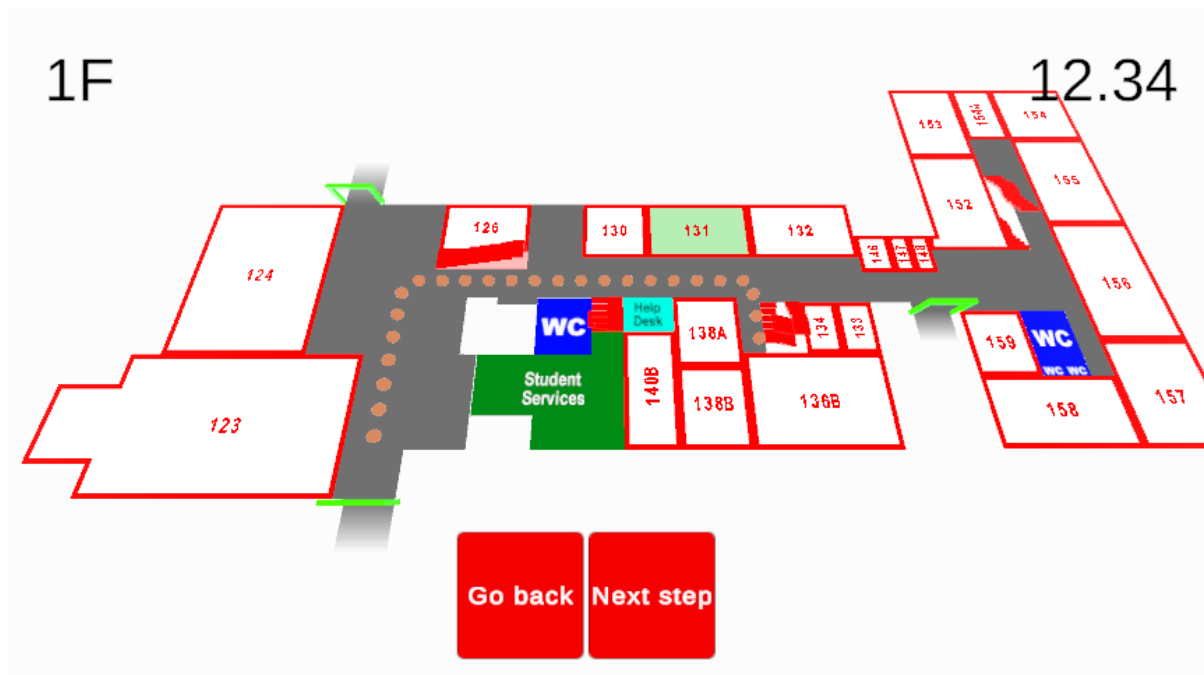

| | | | | | |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | |
| 6 | 7 | 8 | 9 | 0 | |
| A | B | C | D | E | F |

Users can search for any room from here. Typing is only done by clicking or tapping buttons on the screen. The maximum number of characters in the search field is 4 since there is no room, that has more characters in its name.

Buttons:

- Apply => Search currently typed room. It will continue to navigation if the room is valid. If the typed room does not exist or field is empty, error will appear.
- Back => Return to main screen. If the search field is not empty, it will instead remove the last character from it.

Navigation

During navigation, a path will be shown to the current user. If a searched room is located on a different floor than 1, the path will be split into 2 steps. In step 1 it shows path first to closest stairs to that room. Then in step 2, the floor changes to where the room is and shows a path from those stairs to that room.

Buttons:

- Go back => Means ending the path navigation.
- Next step / Previous step => Moves user to step 1 or 2 in the navigation. If navigation is set to room on floor 1, this button will not function.

Room info

Room 131

| Name | Time |
|--------------|---------------|
| Varaustesti | 11:47 - 13:30 |
| Varaustesti1 | 13:51 - 15:30 |
| Varaustesti2 | 15:45 - 17:15 |
| Varaustesti3 | 18:00 - 19:15 |

[Go back](#)

In here room info can be seen such as reservations for that room. 5 reservations can be seen at once. Currently, ongoing reservations will be labelled as blue. Passed reservations will not be viewable anymore but are not deleted from the system. Reservation info only contains title, start time, and end time.

Note. This screen is only accessible from the main screen mode.

Buttons:

- [Go back](#) => Return to main screen.
